Dewatering Bag for a Clean Jobsite

Manager's Report by Rob Clarkson

We are headed into this boating season with a lake that is at full pool and in excellent shape considering the amount of rainfall we have had in the last few weeks. I would like to remind all those utilizing the boat ramp at the Marina to please lock it after putting your watercraft in or taking it out of the lake. We are ultimately responsible for keeping non-members off the lake and this is a simple way of doing so that we all can help with. The locking system has undergone a change to make it much easier to lock the cable. If you need a key to the cable, they are available in the office for \$3.00. Holishor 2022 boat decals expire 30-April-2023 and dues and assessments need to be paid in full before you can obtain decals for 2023

Spring is here and many are hoping to plan summer vacations. Madison County Sheriffs will come to check your house while you're away once per shift and all you have to do is call them. This is a free service provided by the county and is a great way to ensure our neighborhood is protected. The service is called VIP. Just the presence of the Sheriff in our community could be a great deterrent from unwanted activity. To request a VIP check on your home contact the Sheriff's Office at (618) 692-4433

Grass will be an issue very soon. Our instruments are clear and indicate in the event any property attain growth exceeding an average of 10 inches in height; the Association shall have the right to mow at the expense of the owner. There is a charge of \$150.00 for each lot. This element of our instruments needs to be well understood by our membership prior to it becoming an issue.

ATT Fiber infrastructure is well underway in sections of the community. So far it seems little disturbance to the community has been reported. Areas affected will be posted on our web site and FB page. As the construction moves through the community, we will post updates to keep you informed. If at all possible, avoid the areas to help make the process a bit smoother.

NOTICE

2023 Dues & Assessments were due
paid in full by May 1, 2023

Late charges are assessed on the 10th of each month.
Members who may have difficulty staying current with this requirement
should contact the office and communicate with us any special needs.

DECALS

2023 decals are lime green. Bring in a copy of your registration and
proof of \$300,000 liability insurance (for motorized boats) as soon
as your Dues & Assessments are paid in full. There will be four types
of decals: motorized, non-motorized (kayaks, paddle-boards, canoes
etc, PWC's and slow moving vehicles (golf carts, side-by-sides etc.)

HOLIDAY SHORES Garden CLUB NEWS

By: Patti Brown www.holidayshores.us/garden-club

The Holiday Shores Garden Club's next meeting will be held May 15th at 7 pm in the Clubhouse Ballroom. The meeting will kick off with a presentation by Master Gardener/Naturalist Bill Klunk. Bill will give a presentation on Integrated Pest Management covering chemical control as well as other methods of controlling pests. Guests are welcome and not required to stay for meeting.

Don't miss the Holiday Shores Fire Department Fish Fry and BBQ Friday, May 5th. The Garden Club sale will be under the tents in the parking lot. The sale includes popular perennials like hosta and ground covers as well as beautiful hanging baskets created by members. Member contributions are supplemented with quality plants from a local nursery. Raffle tickets for a wide variety of items are available and also a fun way to support the garden club. The proceeds of the sale and raffle are used to beautify the community. Recent projects were the landscape updates to gates A and M.

Friday, May 5, 2023

Don't miss the ANNUAL PLANT SALE or Fire Department Fish Fry/BBQ
Large selection of reasonably priced plants and hanging baskets.
Useful, fun and interesting raffle items for all ages.

MAY GARDEN TIPS

Don't remove spring bulb foliage (tulips, daffodil, hyacinth) prematurely or next year's flower production will decrease. As foliage dies, bulbs can be moved or divided.

Set out tomato, pepper and eggplant plants as soon as soil warms, usually mid-May. Sweet potatoes can also be planted now.

Houseplants can be taken outside when night temperatures will remain above 50 degrees. Acclimate them gradually to sun (morning sun is preferable) and strong winds.

HOLIDAY SHORES FIRE DEPARTMENT

Firefighter's Footnote

Firefighter's Footnote - HSFD has made a change to our constitution – we have created a new level of membership called Auxiliary Member. This change was initiated to include anyone who is interested in helping out at the department but does not want to be involved with any on-scene activity or direct patient care. There is a six month probationary period and some very basic on-line and hands-on training required (such as CPR). There are several department family members who are already volunteering with various activities, and this allows them, and anyone else who wishes to join, to participate in other areas as well. Some ways that you can help out include: monthly check-offs on our trucks and medical equipment, operating the radio while we are responding to a call, helping out at various functions such as our fish fry, and assisting at bingo once or twice a year - which raises funds for our department and is held at the Firemen's Bingo Hall in Collinsville. If you are in-

terested in becoming a member of our department on any level of membership, drop by any Monday evening between 7 and 9pm, or call us and leave a message at 618-656-6673.

Don't forget about our Fish Fry this year – what better way to celebrate Cinco de Mayo! HSFD will be open again this year for the annual spring Community Yard Sale on Saturday, June 3. Our restrooms will be available along with maps of the neighborhood. We will sell donuts, hot dogs, chips, and soda/water. This past month we had a couple training days for auto extrication to practice using our new battery operated equipment. This month, we will review several items: ladders, ropes, venting, tool usage, basic roof operations, and SCBA (air tanks). We responded to 28 calls this past month: 16 medical; 4 power line/transformer issues; 2 mutual aid/fires; 2 dispatched then cancelled; and 1 each for car accident, lift assist, CO detector alarm, and brush fire. Monday, May 29 is Memorial Day and the traditional beginning of summer.

Remember water and boating safety when you are out on the lake. Check us out on our website at www.hsfd.org or follow us on Facebook.

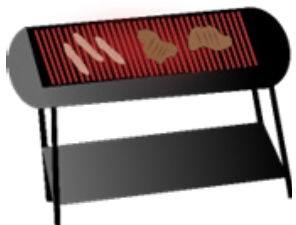

ANNUAL FISH FRY May 5 4-8pm

It's that time of year again – Holiday Shores Fire Department's annual Fish Fry fundraiser! We will hold our Fish Fry on Friday, May 5 from 4-8pm or until the food sells out. There will be whitefish, catfish and pork steaks, brats and foot long hot dogs, along with potato salad, homemade coleslaw, dessert, and a drink included. There will be indoor dining and carry outs available.

The proceeds from this year's fish fry will benefit HSFD firefighter(s) who need assistance with ongoing medical care and expenses. The Garden Club is also having their annual Plant Sale which will be set up in the front of the building by our

9/11 Memorial Garden. The Ski Club will be there as well for you to check out. We hope to see the community show up to support our department, to gather with friends, and to enjoy some great food as well. What a great way to spend your Cinco de Mayo!

Dredge – North End Silt Removal

We have a proposal from Stormwater Erosion Specialties to perform an electronic process of measuring the silt level on the north end of the lake for \$1,800. This could make collecting bids for the work completion in drawdown of 2025 a smoother process.

Shaun Diltz I do this so we can get this for free. I'll just go do it by the next meeting and then give you guys what he would give you and then we save \$1,800.

Tabled till 3/22/23 Board of Director's meeting

Sign Verbiage Ballot Approval

A new bylaw has been proposed to be presented to and voted on by the membership and a sample ballot has been provided by the office for approval. It reads "Article III - Section 2, I. Maintenance of property, 4. Signs (The Board of Directors have the authority to propose and change rules related to signs that are allowed within the Holiday Shores community. The board will follow the New Rule/Change Process found in Part IV - Board Actions). Purpose of Bylaw addition: When the covenants were updated last, restriction number 5 was updated to read "No signs of any kind shall be displayed on any lot except those expressly permitted by the Bylaws". It should have read permitted by the rules. To provide the community with flexibility, this bylaw will allow the board to quickly make some exceptions to this restriction. Without this new bylaw all signs will be restricted in the community including ones that had previously been allowed. Tony Harris Makes a motion to approve this ballot for the annual meeting

Shaun Diltz Seconds

2024 Budget

Tony Harris Looking at where we are, historically the spending levels that we have with the ditching and the road work that we've been doing, and inflationary impacts we've been hitting, we're looking at roughly a \$100 member assessment increase to continue the same level of ditching, roadwork, fireworks and everything else that we've got in the budget. If we don't, then we'll have to cut out services. We're budgeting 1220 members so it's basically an additional \$122,000. Basically, if you don't do it then you're looking at cutting services, whether you're cutting roads, whether you're cutting lake patrol, basically you will have to cut that amount of money out of the budget. And we've been running a pretty lean budget the last few years anyway. Well look at what we think we can cut out of the budget next week at the next finance meeting in case the increase is not approved by the membership at the annual meeting.

Open Floor

Brian Bagby (414) (Holiday Shores Fire Department) We're trying to ask the Association if there's anything that can be done as far as a recruitment tool and to reward our membership. The men and women average about 227 calls a year. A fire instance, if it's a structure fire, that can be four plus hours just on scene, and then another couple of hours getting our trucks back in service and everything. Meetings on Monday nights and then an occasional Saturday of training. So there's a lot of encompassed. We're sitting about 20 members right now. We are trying to increase our membership to serve the community and the fire district. So it's two separate identities. We're seeking the board's assistance as a recruitment tool, if there's any way that A) The Association fees lessened or taken away for the volunteer fire department members that reside in Holiday Shores and B) To have people that live in the fire district, again not necessarily that live in Holiday Shores, that they would be able to obtain lake privileges. We are trying to increase our membership right now, due to COVID, and people returning back to work, there's not as many members that we're able to get on to calls as we would like so we are reaching out to neighboring departments for mutual aid. And then that in turn to as region 4 being Alton Memorial Hospital, the ambulance service, they either have either units that are out of service, or the number of calls we have to rely upon Staunton, Edwardsville and Hamel. We are looking to increase our available membership to assist on those calls. And again, with that recruitment tool have been asking the public in the fire district itself, 8 square miles if they're an LPN and medical assistant reach out to those individuals that could help serve the community, but as a reward for our members to lessen than the cost. I know that you just mentioned with the budget, but to help us as well for the hours that we put in and to serve the community and to do it very well. Right now we have about 15 active members that this would affect being able to take away or lessen those costs to help us. Sarah Jacoby You're asking about a recruitment tool, what's your goal as far as active members? Brian Bagby (414) I've been active for 6 years now, within the past 10 to 15 years. I said we had about 30 members. So we've lost three, just within this last year. Obviously, we're not getting any younger. That's what we're trying to do is to try to seek younger membership. It's very difficult because of housing requirements, you know, persons 20, 22, 23 cannot afford a house out here. We do have some members that are young or living at home or with a friend, but some of those people are moving on. They're moving out of here and it's going to be a big impact here unfortunately. We're trying to seek other ways long term, we're working with the Chief and some other members of the community for maybe within the next five years to help compensate that through a series of grants and wherever else resources that we can attribute to. But we don't see it getting any better and this is just not our community. It's nationwide that volunteer firefighters are struggling to keep members on board. Conversation ensues. Tony Harris So just from our comments, so for the association fees one I would be in favor of that one. I think that's a nice incentive to get people to volunteer. The lake one to me is a little more complicated just from the volume that we have on the lake right now. Board will discuss and will reach back out to the fire department. Robert Rhea (48) Asking permission for the ski club to tie up the ski jump against the rocks in the no wake zone just past the ski site and move it out to their tie downs in the middle of the ski site whenever actively

Board of Director's Candidates *You may vote for up to three candidates*

Trisha Yates - 1349 Biscay

As a six-year member of Holiday Shores and one year served as a board member, I've witnessed a number of challenges arise within our community. I have insight of the inner workings of the board and the number of challenges that we face from structural, safety, and economical aspects and I have experience in owning a business and maintaining several financial and insurance licensures. I continue to have the desire to better our community. In keeping relationships with our members, one theme that carries through is the wish to maintain our community's uniqueness, while continuing to improve our neighborhood. I approach this candidacy with full awareness and an open mind. I will maintain my approach to have no agenda. I simply want to hear all ideas that serve to make our community a better place.

Sincerely,
Trisha Yates

James E McCann, Sr - 378 Point of View Drive

I have lived in the Shores for 32 years. I have served on the Board of Directors in the past for 12 years. During that time I served on the Building Committee, the restaurant committee and the punitive fines committee. Currently I am the Acting President of the Safety Committee. I feel my past experience on the board would be helpful to the current board.

John Crotty - 912 Vera Cruz

My name is John Crotty and I have been part of this community since 2009. I am an Electrical Engineer and currently work as a manager at a major utility. I have spent most of my career in leadership where I have been responsible for process efficiency and cost reduction. I have spent the last three years as a member of the board of directors including two years as the president. Over the past few years, we have focused on improvement to the association facilities and roadways and managing budget constraints. I believe the next items of focus should be on improving lake quality, reducing safety concerns, and communication with the community. This is a great community and I look forward to the opportunity to continue to serve as a member of the board.

Rachel Reynolds-Valdez - 850 Newport Bay

Greetings Holiday Shores Community, My name is Rachel Reynolds-Valdez, and I am excited to announce my candidacy for a position on the Holishor HOA Board of Directors. I look forward to an opportunity to work with other board members, the Holishor management team, and the community to continuously make Holiday Shores safe, clean, and a great place to live. I am a third-generation property owner at the Shores and have owned four properties here over the last 25 years. My husband and I have now owned 850 Newport Bay for over two years and plan to make the Shores our home within the next 12 months. I am confident in my knowledge and understanding of what it takes to make a good board member and how to help make a difference in our community. These are my goals for the community: 1. Continue to help build community relationships. 2. Establish a noise ordinance. 3. Make aware of the importance of boat sticker compliance, boat operation ethics, and boating safety. 4. Encourage those overdue on their HOA fees to develop a plan for back payment by explaining to them how their efforts will increase the functionality and effectiveness of management and their property value. If you believe in my goals, please vote for me in the Holishor Board of Directors election. Thank you! Best Regards, Rachel Reynolds-Valdez

Board of Director's Candidates

Ben Kelley -1824 Port Lane

My name is Ben Kelley , I would appreciate being considered for a position on the Holishor Board of Directors. I have lived in Holiday Shores since 2005. I have been employed for 33 years at St. Louis Metropolitan Sewer District. I also have 40 years of experience at home renovation and working with municipal building code inspectors.

I Love living in this community and enjoying all it has to offer. I enjoy fishing on the lake as much as I can. I love being involved in the community and volunteering. I have been chairman of the boating committee here at Holiday Shores for over five years. I have been in Holiday Shore Ski Club since 2007 and have served in a leadership role for most of those years. I am also one of the boat drivers for Holiday Shores Ski Club.

I am wanting to be on the Board to serve the community and I do have a special interest in boating safety along with public safety in our community and I want to help keep Holiday Shores a fun, safe and desirable place to live. I'm looking forward to serving the community and would appreciate your vote .

NO WAKE & TRAFFIC PATTERN

● No Wake Areas (Boating Rules p.5)

- Shaded areas on the map are considered no wake.
- Swimming area by the Clubhouse.
- A distance of seventy-five (75) feet from the shoreline shall be considered a “No Wake” area unless otherwise posted with buoys.
- Between sunset and sunrise watercraft shall operate at “No Wake” speeds only.
- Entire lake when 9 in above full pool or 16 in below full pool.

⚠ Known shallow areas

Areas are 5 foot deep and during lower lake levels, will be shallower.

Definition of No Wake

“Slow, No Wake Speed” means speed at which the vessel does not produce a wake, not to exceed 5 miles per hour.

Traffic Pattern (Boating Rules p. 1)

All watercraft operated on Holiday Lake shall travel in a counterclockwise direction.

Parking Lot Repair Bids

Three bids. This is for the area in front of the tennis courts for the handicap spaces. The concrete that has fallen apart we're going to tear out and asphalt over. Arrow Asphalt Paving \$12,300. DeLaurent Construction Co., Inc. \$19,492.70. Big City Asphalt LLC \$18,500. Conversation ensues.

Tabled till 4/12/23 Board of Director's meeting

2024 Assessment Increase of \$100/member Proposal / 2024 Budget

Tony Harris The 2023 revised budget was used as a starting point. Carryover this year is \$125,000. We are not expecting a carryover in 2024 so we are going to be short in 2024. You don't have additional funds. We have put in the 2024 budget for membership consideration a \$100 per member increase in assessments taking the 2024 Dues & Assessments to \$810. That's an additional revenue of \$122,000 budgeted at 1200 members. We only have four properties left to sell, which has also contributed to money that we have for roads. I didn't mention this, but in the 2023 revised budget, we are pulling \$85,000 out of reserves to help cover the road budget we're spending this year, there wasn't enough income to fully cover that budget even with the carryover. So we're pulling money out of reserves. This came from the property sales that we've had. There will not be any future lots to sell to have that income to offset any roadwork in the future. Even with the increase that we budgeted for, we're continuing to spend money out of that and we're spending approximately another \$55,000 in 2024 from those lot sales from historical years. We're going to pull \$85,000 this year, \$55,000 next year. At some point when that money is gone, then we won't have enough money, we'll have to continue to cut the road budget down. When I say roads, I mean, road resurfacing and ditching. We're considering those categories to be in the road budget because they're both related to roads. The other things that you'll see is pretty much the dollars are staying relatively consistent. We have some small inflationary increases and things that go up, just like we see we go to the grocery store, buy clothes or whatever. Things are going up, the minimum wage in Illinois continues to go up. We're trying to cover those type of costs. I think the key in this budget is we currently have budgeted \$150,000 for stormwater improvements, which is our ditching line, and \$77,000 next year for road resurfacing, which is just oil and chip. This year it's higher because we're doing that rebuild on Nassau. But after that, it's just straight oil and chip on the existing roads. With those that basically puts us even. So if we don't do the assessment increase, we either cut out pretty much all the ditching, cut down on the road resurfacing or we start cutting out things like fish stocking, fireworks, lifeguards. Once we get the ditching finished, we do have roads that we're going to have to rebuild. This year we're using some carryover money, where we didn't spend money last year to rebuild Nassau. But there's other roads in here that in the future, we're going to have to start going around rebuilding. We just didn't want to do any rebuild until the water was fixed that was going to tear up the work that we did. Because when we did the proposal, I want to say, two or three years ago, it was a \$6 million price tag total for all the ditching and the roads, give or take some money I'm going from memory here. So there's other items in that I don't know specifically what they are, I was going to try to talk to Rob to kind of see what we had in that plan. But you know, rebuilding those roads, and you're going to have some future, things like that, that probably goes more in the road lines and the ditching lines, but there should be some ongoing expense. I don't think it will completely go away after 2024. It may go down a little bit, I don't know. But I think there's going to be roads that'll need to be repaired and rebuilt over and above the normal pothole repairs that we fix. If we don't have the money then it won't get done. We've gotten to the end of all the belt tightening we can do. Conversation ensues.

Tony Harris Makes a motion to approve the 2024 budget that we have here tonight to be presented to the membership at the annual meeting.

Variance (1692)

Variance request if to ask that a building put up as a storage shed stay a storage shed as the building committee classified the building as a garage due to the size and the fact there was a driveway installed leading from the structure to the street. Member was in attendance and conversation ensued. Board Action: For the building to be considered a storage shed you would need to move it back to where the front of the shed is not past the rear of the house and change the color to match the exterior of the home OR change the permit to a garage and pay the difference of the deposit between a storage shed and garage and it can stay like it is with no changes. Member choose to change permit to a garage.

Variance (234)

Variance is for a member to install a privacy fence along 3 sides of her property. Conversation ensues

Variance Denied

Maintenance Building Repair Bids

The skylights in the maintenance building are very aged and during the recent winds they sustained damage to many of them currently allowing rain and snow in and wild-life in the opening and will eventually cause problems to the building. Recommendation from Rob is replacing all them because besides just the damaged ones as they are all pretty aged. 2 bids were received to replace the skylights. Stutz Excavating \$3,275. T.F.H. Construction \$4,836. Conversation ensues.

Ty Van Ryswyk Makes a motion to approve the Stutz Excavating bid for \$3,275.

Correspondence

(537) A correspondence from a now ex-member who was disappointed with the rule that a seller has to pay a full year of dues & assessments when not even living there. Buyer pays pro-rated dues & assessments. Feels it is not right collecting from both. BOARD REPLY: There's a bylaw, Article IV, Section 7 that specifically states that if you're buying you pay dues & a prorated set of assessments and if you sell there will be no refund of dues and assessments already paid.

Open Floor

Keith Schulz (914) The last time we had the \$100 increase they touted it as road funding. We need the \$100 for road funding, and they broke down all the numbers, this is what it's going to be, and it passed, no problem. And then the board turned around and put most of it towards reserves, funding reserves. And that never made it to the roads. We didn't see road work here until I think maybe Rob got here. And we actually started to see some overhauling and ditching and this kind of thing. So I was very interested to see what and where this was meant to go. And so far, I've only heard general pocket money, you know, keep us running. And in the meantime, everything has been taken away from us. We had security taken away. You have lake patrol, we finally got the couple this year, I guess to do it. You turn kids loose in the carts that nobody could trace or take care of. It just seems like nobody is caring about the Association anymore. I heard that we couldn't even get somebody to come in after the rain to turn on the no wake light. You know, it's like nobody's looking out for their neighbor. Nobody's looking out for the Association anymore. You know, it's just like, this is how we run. You know, I would really like to see a little more consideration and somebody looking out for us, you know, I mean, it's the old story of Holiday Shores is the wild west is starting to come to attrition. You know, like I said, there's no security. There's nobody here. You got people without decals on the boat fishing on the weekend. There's nobody to call. There's nobody in the office. There's no security. You know, that's what it is. John Crotty I would argue, we had four lake patrol people last year out more than they were even the past few years, based on the feedback from safety committee, and from our community. Our safety committee has done a great job posting the numbers and who to call. So there are people to call, and we have lake patrol on the weekend. Jim McCann (378) Just wanted to basically state that when we got that \$100 increase passed, we were in the process of testing a new road surface, which we put on Over-

Garden Club Native Plant Community Project

(Located at the Silt Pond, North End of Lake on Biscay Drive)

Garden Club continues to seek community volunteers to assist with the Native Plant Community Project. We need **YOU** to work with us and others as we restore this natural area at the north end of the lake.

Native Plants are Perennials

After established and mulched, they require no watering and never need spraying. They provide excellent erosion control and are very colorful all season. They attract songbirds, butterflies, and pollinators....all beneficial to the environment.

Work days are the third Saturday of April through October at 8:00 a.m. until

9:00 a.m. **AND**, on the first Wednesday of the month from 6:00 p.m. until 7:00 p.m. A time commitment of just one hour per month will make a huge impact. Men, women, and children with adult supervision are welcome. Make it a family affair!!

Please consider adding your name to our list of volunteers for this project, or, simply drop by on one of the work days. We would enjoy meeting you!

God's Promise

Psalm 91 (New Century Version)

- ¹ Those who go to God Most High for safety will be protected by the Almighty.
- ² I will say to the Lord, "You are my place of safety and protection. You are my God and I trust you."
- ³ God will save you from hidden traps and from deadly diseases.
- ⁴ He will cover you with his feathers, and under his wings you can hide. His truth will be your shield and protection.
- ⁵ You will not fear any danger by night or an arrow during the day.
- ⁶ You will not be afraid of diseases that come in the dark or sickness that strikes at noon.
- ⁷ At your side one thousand people may die, or even ten thousand right beside you, but you will not be hurt.
- ⁸ You will only watch and see the wicked punished.
- ⁹ The Lord is your protection; you have made God Most High your place of safety.
- ¹⁰ Nothing bad will happen to you; no disaster will come to your home.
- ¹¹ He has put his angels in charge of you to watch over you wherever you go.
- ¹² They will catch you in their hands so that you will not hit your foot on a rock.
- ¹³ You will walk on lions and cobras; you will step on strong lions and snakes.
- ¹⁴ The Lord says, "Whoever loves me, I will save. I will protect those who know me.
- ¹⁵ They will call to me, and I will answer them. I will be with them in trouble; I will rescue them and honor them.
- ¹⁶ I will give them a long, full life, and they will see how I can save."

This wonderful Psalm from the Bible is not an automatic promise of protection from everything bad. Rather it is a picture of what we must do. See verse 2: "I will say to the Lord... you are my God and I TRUST YOU! In times like these, we trust the One who loves us so much that He will always do the best for us. Our confidence is in a person and not in an end result.

To talk about this or other Bible matters, call Pastor Rob Lemon at 618.377.7729.

look, Holiday Point Parkway. and on Highpoint, where we completely took those roads basically down to their base, brought in specialty equipment and put that slag down, I think it was about a 12 inch layer of slag to rebuild those roads, was very expensive, was also very successful. And then the slag dried up and we couldn't get it anymore. So we couldn't do any more of the roads. But a lot of that \$100 increase went to building those three test roads that we did put in, and all three of them are still in very good shape today and that's been seven to 10 years ago, probably 10. Speaking to the reserve fund, reserve funds have been funded every year regardless. The year that we put in additional monies in the reserve, we found that we had a huge shortfall in some of the areas on the reserve. And in order to maintain the integrity of the reserve the reserves, we had to add extra money, one year that I can remember, in order to get the reserves up to a level where they could be maintained with reasonable contributions going forward. Conversation ensues. Shaun Diltz As far as the roads prior to Rob, they were consistently I'd say we did five miles of the oil and chip in the community. But one of the issues was, is when we were doing it and the water was still running over the road, it was still causing a lot of issues. So we're still oil & chipping these roads and those roads might only be good for two to three years because of the water issues on them. So then we passed a rule in 2018 or 2019 to go ahead and make it to where we could ditch and do culverts in front of people's houses so we could fix the drainage and then we could tackle the roads afterwards. So we weren't putting oil and chip down on roads that weren't going to last so the ditching has been done over the last three or four years. Incongruency we've went behind and tackled some of the roads. Like we're rebuilding Nassau, we rebuild Tampico, part of Sextant and there'll be more, but even with the rebuilds the oil and chip now that we're putting on is lasting longer, because there's not as much water going over the roads like there used to be. Keith Schulz (914) I understand that before the \$100 I know. This is back when Glenn was here we do the 42 let's say to 80 \$90,000 a year. Oil and chip, oil and chip, oil and chip, they came to us with the \$100 proposal, and it still went oil and chip, oil and chip. And my reference to lately was when Rob got here, it went over the six-figure mark when you actually started doing overhauls, which we were expecting with the \$100 increase. Jim McCann

(378) Holiday Point Parkway was the first experimental road that we addressed. We thought that coming into the clubhouse we wanted to put our best foot forward and it was traveled a lot. So what it did not get the same. It didn't get the same road surface that Overlook or Highpoint got. It wasn't in as bad a shape as either one of those roads. But it was a different type of material that was put down. It was put down wider. It was heavier, we talked about doing it to Holiday point Parkway, and decided not to because we just spent a lot of money to test the surf resurfacing that we did on Holiday point Parkway. And while it was oil and chip, it was put down in a different manner. It was put down heavier was put down wider. It was it was rolled and packed. And we wanted to see if that was going to work. But it was there are several different phases. Okay, I've been out here 32 years now, the roads out here been in bad shape for 32 years, they're going to stay in bad shape, until we can come up with enough money to properly put in curbs and gutters and ditches out here. We're going to live with the roads that we've got. That's what was put in by the original people out here. We're stuck with it. We don't have adequate bases or crowns on hardly any of the roads that we have. And we've talked about road studies for years, you know, and we keep trying to do things with these roads. And I just don't see that until we come up with the \$6 million that you're talking about. You know, when we did our study, the engineering study alone was going to cost \$1.5 million. So, and at the time, in addition to oil and chip, we were doing asphalt on all the cul de sacs that were out here. And we did several asphalt cul de sacs at the same time after that increase went into in to play.
