God's Harvest

The effort of the spring and summer climax in the garden harvest. Tomatoes and squash have peaked but the melons are still going strong. And we've been enjoying cucumbers, peppers, blackberries, and a whole host of other delicious fruits and vegetables. Some years our gardens are our delight. Other years not so much as we try to figure out what went wrong and what we can do better next year.

The Bible says we are heading toward a human harvest. Jesus told a story (Luke 8) about a farmer sowing seed and describes what happened to the seeds as they fell on the ground. The seed represents God's Good News about how He wants to forgive human rebellion and sin and remake human lives. Some of the seed falls on hard human hearts and does not grow. They are not interested in God or his spiritual world. They want to stay where they are and don't want any change. They love the nasty words and actions that come out

of their sinful hearts. Some seed falls on hearts that are somewhat interested but other things distract and that seed grows only a little bit. Other seed falls on hearts that long for forgiveness and really want to be changed. God's message grows in those hearts and accomplishes amazing and wonderful things.

God's harvest at the end of time is about how we've responded to God's Good News and how much we have permitted him to change our lives.

That makes me ask questions about my life and my intentions...

- How is my heart responding to what God is trying to do in my life?
- Am I soft and pliable as He works with me? Or am I hard and unbending?
- Am I doing the things now that He will be pleased with at my evaluation?

If you would like help answering these or other questions, contact Pastor Rob Lemon at 618-377-7729 or email him directly at PastorRob@holidayshoresbaptist.org.

Manager's Report by Angie Webster

The SuTwan and Waikiki, road remediation began August 3rd, there has been a delay in the project due to availability of oil. Chip and seal was completed on August 18.

Road repairs and potholes will continue as weather permits throughout the community. We will be concentrating on one quadrant at a time. Please be patient and understand we have limited manpower to accomplish this while taking care of all the other amenities.

The clubhouse parking lot will be repaired and resurfaced on Monday, August 18. This is a multiple-day project, Monday will be repairs and the parking lot will be half open and half shut down. Tuesday is the asphalt resurfacing and sealing parking lot will be closed. Wednesday morning the new stripes will be painted, and parking lot will reopen that afternoon. We are sorry for the inconvenience. This is all pending weather, and everything is going smoothly.

As the summer is winding down, and kids return to school. Please be mindful of our little ones at bus stops. Parents try and park to one side of the road only. This allows others to pass through safely. We need to slow down through these areas and be extra cautious.

Properties in disrepair, overgrown and unmaintained are being addressed with the help of Madison County Building and Zoning. As boating season winds down, we will be out in the community more looking into these properties and letters will be sent requesting members get these areas cleaned up.

While driving through the community, I have noticed that multiple houses do not have house numbers. All homes should have house numbers displayed on the front of the home easily visible from the road and for lake front owners on the lake side as well. This includes numbers on non-improved lots as well. This rule, effective in 2005, was at the request of our emergency services. Successful response to an emergency in many instances can be measured in minutes and seconds. Please check your homes and lots to ensure that your numbers are visible.

The Holishor Association

**Board of Director's meetings are held the
2nd & 4th Wednesdays January-October &
the 2nd Wednesday only in November &
December at 7:30 pm in clubhouse ballroom.**

All Holishor members are welcome to attend.

*If you cannot attend you may submit a written
correspondence to go to the Board. It must be received in
the Holishor office by noon Friday prior to the Board
meeting. This allows the Board time to research the issue
before the meeting.*

**The Holishor Building Committee meets
the 1st Tuesday of December-March &
the 1st & 3rd Tuesdays April-November at
6:30pm in the Library in the lower level
of the clubhouse.**

*Building permits must be turned in to the Holishor
Office before noon on the Friday before the meeting*

**Application packets are available in the office
and our website www.holidayshores.us**

NO WALK-INS ALLOWED

HOLIDAY SHORES FIRE DEPARTMENT

Firefighter's Footnote -

The unofficial start of the Fall season is almost here. That means that school is in session again and daylight time will get shorter, so be careful and watch for students to and from the bus stop. It is the law to stop whenever a bus has stopped, has their flashers on, and their stop sign is out unless you are on a four lane road.

Save the Dates: We will have a bigger ceremony than usual at **sunset on Friday, 9/11** at our Memorial Garden that has a steel beam from one of the twin towers. This will mark the 25th anniversary and the loss of 343

New York firefighters who gave their lives while saving others. Everyone is welcome to attend. **Saturday, October 3** will be our annual Open House with snacks, games, and a bouncy house. You can tour our department and trucks, and you might even be inspired to join our family!

Training: Last month we went over our Pump Operations and practiced our Tender Shuttle training. This month we will review our Truck Familiarization, Auto Extrication, and Trauma Packaging. **Calls:** We also responded to 33 calls the previous month.

Become a Member – HSVFD is run by volunteers and new members are always welcome. No previous experience needed, we can teach you what you need to know. From Auxiliary to Firefighter, from helping out at the department to fighting fires, there is some way for everyone to help out. Come by any Monday evening (holidays excluded) between 7 -9pm to talk with us and see what we are all about. Check us out on our website at www.hsvfd.org and follow us on Facebook. Have a great Labor Day weekend!

Holishor Association Fishing Committee

Holiday Shores Members,

Fall Transition Fishing at Holiday Shores Lake.

As summer gives way to fall, Holiday Shores Lake anglers can look forward to some of the best fishing of the year. Cooler water temperatures begin to change fish behavior, and bass, crappie, bluegill, catfish and hybrid stripers all offer opportunities for anglers willing to adjust their tactics.

Largemouth bass will begin moving from their summer patterns as water temperatures drop. Boat docks can be especially productive during the fall transition. Docks provide shade, cover and an excellent ambush point for bass, particularly when they are located near deeper water or areas holding shad. Try working jigs, soft plastics, spinnerbaits and crankbaits around dock posts, pilings and the edges of docks. Don't overlook the shady side of a dock, especially on bright, sunny days. Shad become increasingly important as fall progresses, and anglers should watch for signs of baitfish around docks and other shallow cover. Shad-colored crankbaits and spinnerbaits can be excellent choices when bass are actively feeding. The hybrid stripers stocked this spring should also provide exciting opportunities as they continue to grow and adapt to the lake. Watch for feeding activity around schools of shad, particularly during the early morning and evening hours. Crappie and bluegill will also provide plenty of opportunities. Boat docks can be productive places to target both species, especially docks with submerged structure or deeper water nearby. Crappie anglers should work jigs or minnows around dock posts and shaded areas, while bluegill can often be found around shallow cover.

Catfish remain a dependable option as well. As water temperatures cool, anglers can find them around deeper water and areas with good cover.

Fall is a great time to enjoy Holiday Shores Lake. Cooler temperatures, active baitfish and the lake's variety of species make this transition one of the most enjoyable times of the year to fish. Whether you're casting around a dock for a largemouth, working a jig for crappie or chasing the newly stocked hybrid stripers, there is plenty of action waiting beneath the surface.

Thank you, Holiday Shores Fishing Committee

Creel Limit

Species - Daily Limit - Size Limits

Largemouth Bass - 2 - 16" minimum length

Hybrid Striped Bass & Striped Bass - 1 - 20" minimum length

Channel Catfish - 2 - 20" minimum length (Total-All Catfish Species)

Flathead & Blue Catfish - 2 - 20" minimum length (Total-All Catfish Species)

Bluegill / Redear - 30 - No Size Limit

Crappie (All Species) - 20 - 8" minimum length (Currently no limit until 2027)

The north ponds are catch and release for largemouth bass through 12/31/2027. Effective 3/15/2026

As a request from the Board of Directors an independent survey of the fish community and other physical, biological, and chemical factors directly affecting the fish community was completed at Holiday Lake on May 28, 2025. Scan QR code to see the report.

Celebrate Summer with Homemade Peach Ice Cream

(Feature Impact) Nothing screams summer more than ice cream - although sweet, juicy peaches are a close runner-up in the competition. For the ultimate seasonal celebration, combine the two fan favorites with this homemade Peach Ice Cream recipe.

Using ripe, succulent peaches will make this ice cream burst with natural sweetness, while the vanilla and brown sugar add extra richness and a hint of caramelized flavor. A little brightness and zing from the fresh lemon juice finishes off your bowl of refreshing summer goodness.

The recipe requires an ice cream maker, and you'll need to freeze the bowl for 24 hours before you churn, so be sure to plan ahead. Once finished churning, you can serve it immediately or pop it in the freezer to enjoy during the next heat wave. Find more summer dessert recipes at Culinary.net.

Peach Ice Cream

Recipe adapted from Stephe Cooks

Prep time: 25 minutes

Churning and freezing time: 5 hours, 30 minutes

Servings: 12 (makes 1 1/2 quarts)

- 4 cups fresh peaches, peeled and sliced (5-6 peaches)
- 1/2 cup granulated sugar
- 1 cup brown sugar
- 3 tablespoons fresh lemon juice
- 2 1/4 teaspoons vanilla extract
- 2 cups heavy cream

Prior to churning: Freeze bowl of ice cream maker 24 hours.

In large bowl, combine peaches, sugars, lemon juice and vanilla. Let sit 15 minutes, stirring occasionally, until sugars have dissolved and peaches are juicy.

Photo courtesy of Unsplash

Place peach mixture in blender or food processor; pulse until peaches are broken down but not totally pureed. Add heavy cream; stir to combine.

Pour mixture into airtight container and refrigerate 1-2 hours, or overnight.

Use ice cream maker to churn mixture according to manufacturer's instructions. Once churned, serve immediately for softer consistency or place in airtight, freezer-safe container and freeze 2-4 hours to harden before serving.

www.holidayshores.us/garden-club

The Holiday Shores Garden Club members and guests braved the heat and enjoyed the annual pontoon lake tour on July 20th. Two residents, Brad Ritchey and Fred Shumake, captained the boats. The captains represented Holiday Shores Baptist Church which as a thank you to the club for their volunteer work in the community presented the group with a gift certificate to Waldbart Nursery and provided delicious cupcakes for dessert at the salad potluck after the tour.

SEPTEMBER GARDEN TIPS

Pinch off small tomatoes with no chance to ripen.

Sow seeds of spinach, radishes, lettuce, and leafy greens.

Divide overcrowded spring and summer blooming perennials.

Plant new hardy perennials, trees and shrubs while soil is still warm and the air is cool.

Overseed or patch fescue and bluegrass lawns.

WANT TO LEARN MORE ABOUT GARDEN CLUB

The Garden Club is a social group that contributes to the beautification of the community. Members enjoy informative meetings and perform volunteer work to maintain the public gardens. If you are interested in finding out more, please call or text - Linda at 618-980-4133 or see our Facebook - [Holiday Shores Garden Club](#). Our next meeting will be September 21st, 7 pm in the Clubhouse ballroom. The program will be "Winter Preparations for Your Garden."

Continued from page 18

ing laws. **Tony Harris:** Asked about building specifications for installation of the spa. **Rhonda Bartow (219):** Indicated that this will be recessed about 3 ft into the ground, concrete will be 6 in deep, will put in trap doors to service the spa. Indicate that there is an existing survey on file. **Ben Kelley:** Asked if there was awareness of building plan approvals. **Rhonda Bartow (219):** Was aware that plans would require approval but assumed that there was ample space in the yard. **Ty Van Ryswyk** motioned to approve the variance request up to 5 ft pending letters from neighbors and with final approval by the Building Committee, **Tony Harris** seconded, all in favor, motion passed.

Finance Committee Update: On track to meet budget for the year.

Grant Investigation – Julie Roman (1065) advised the Board that she plans to research potential grant opportunities on behalf of the Association. She stated that the effort is for information gathering only and does not involve any decisions or commitments by the Association. *The Board agreed to allow Julie to proceed.*

WINTERIZING Your Boat

PROTECT YOUR INVESTMENT BEFORE THE FREEZE

As summer winds down and the days get shorter, it's time for Illinois boat owners to start thinking about winter storage. Properly winterizing your boat can prevent expensive freeze damage, corrosion and other problems—and help ensure you're ready to enjoy the water again when spring arrives.

Illinois winters can bring prolonged periods of freezing temperatures, so simply covering your boat and putting it away isn't enough. Your engine, fuel system, plumbing, batteries and interior all deserve attention before the boat goes into storage.

1. START WITH THE ENGINE

The engine is one of the most important parts of your boat to protect. Water left inside an engine or cooling system can freeze and cause serious damage.

For outboard, inboard and stern-drive engines, follow the manufacturer's winterization procedures carefully. Common maintenance includes changing the engine oil and filter (four-stroke engines), changing the lower-unit gear lubricant, lubricating required grease points, inspecting the propeller and checking the condition of the anodes.

Because procedures vary by engine, always follow the owner's manual or have the work done by a qualified marine technician.

5. GIVE THE BATTERY SOME ATTENTION

Batteries can suffer during months of inactivity. Clean the terminals, inspect the

battery and follow the battery manufacturer's recommendations for storage and charging.

Depending on your boat and battery type, the battery may be removed and stored in a suitable location or maintained aboard with an appropriate marine battery charger/maintainer.

2. DON'T FORGET THE FUEL

Fuel can deteriorate during months of storage. Before putting the boat away, add

the manufacturer's recommended amount of marine fuel stabilizer and operate the engine long enough for treated fuel to circulate through the system.

Follow your engine and fuel-system manufacturer's recommendations regarding fuel level and storage. Different systems can have different requirements.

6. CLEAN AND DRY THE INTERIOR

Before closing up your boat for the season, remove food, drinks, clothing and anything

that could attract rodents or other unwanted visitors.

Clean the interior thoroughly and allow it to dry. Leave appropriate ventilation where possible, and consider moisture-absorbing products in enclosed areas to help prevent mold and mildew.

Don't forget to remove valuable electronics, fishing equipment, life jackets and other items you don't want exposed to cold, moisture and potential pests.

3. PROTECT THE FRESHWATER SYSTEMS

If your boat has sinks, showers, freshwater tanks, toilets, live

wells, wash-down systems or other plumbing, make sure water is removed or properly protected before freezing temperatures arrive.

Use propylene-glycol marine/RV antifreeze where appropriate and follow the equipment manufacturer's instructions. Even a small amount of trapped water can freeze and damage pumps, hoses, fittings and other components.

4. TAKE CARE OF THE BILGE

Before covering the boat, inspect the bilge and remove standing water. Clean out

oil, dirt and other contaminants and make sure the bilge is as dry as possible.

Never discharge contaminated bilge water, oil or antifreeze onto the ground or into the lake or stormwater system.

7. COVER IT PROPERLY

A quality winter cover is more than protection from snow. It should keep rain,

snow and debris out while still allowing appropriate ventilation.

Make sure the cover is securely supported and that water and snow can drain away rather than collecting on top. Check the cover periodically throughout the winter, especially after heavy snow or strong winds.

If your boat is stored outside, inspect the cover periodically rather than assuming everything is fine until spring.

8. A LITTLE WORK NOW CAN SAVE A LOT LATER

Winterizing your boat may seem like one more chore at the end of boating season,

but proper preparation can save significant time and money in the spring. A cracked engine component, damaged water system or neglected fuel system can turn the first warm weekend of the year into an expensive repair project.

If you're unsure how to winterize your particular boat, check the owner's manual or have a qualified marine professional perform the winterization.

DO IT RIGHT BEFORE THE FIRST HARD FREEZE.

When spring finally arrives, you'll be much closer to doing what you really want to do—putting the boat in the water and enjoying another Illinois boating season.
