Day

Marina &  
Tennis Court  
keys are  
available at the  
Holishor Office  
for members.  
\$3 each

NOTICE

2022 Dues & Assessments are due  
January 1, 2022

They can be be paid in increments of:

\$236.00 January 1  
\$237.00 March 1  
\$237.00 May 1

Late charges are assessed on the 10th of each month

DECALS

2022 decals are purple . Bring in a copy of your registration and proof of \$300,000 liability insurance (for motorized boats) as soon as your 2022 Dues & Assessments are paid in full. There are four types of decals: motorized, non-motorized (kayaks, paddle-boards, canoes etc), PWC's and slow moving vehicles (golf carts, side-by-sides etc.) Slow moving vehicle decals are \$15.00.

2021 decals expire on April 30, 2022

**The Holishor Association  
Board of Director’s meetings  
are held the second & fourth  
Wednesday of each month  
at 7:30pm in the  
clubhouse ballroom.**

*All Holishor members are welcome to attend. If you cannot attend you may submit a written correspondence to go to the Board. It must be received in the Holishor office seven (7) days prior to the Board meeting. This allows the Board time to research the issue before the meeting.*

**The Holishor Building  
Committee meets every 1st &  
3rd Tuesday of each month at  
6:30pm in the Library in the  
lower level of the clubhouse.**

**Building permits must be turned in  
to the Holishor Office before noon  
on the Friday before the meeting.**

*Application packets are available in  
the office and our website  
www.holidayshores.us*

**NO WALK-INS ALLOWED**

# Manager's Report

## by Rob Clarkson

The Boat show season is just about upon us. Check our Rules prior to purchasing your new boat or PWC to ensure it complies and avoid any problems when obtaining your 2022 Boat Stickers. Hulled crafts have a 22' and Pontoons have a 28' maximum length. Check the IDNR or Holiday Shores websites to understand how this measurement is taken. For your reference, in our Boating Rules, a diagram is located on page 4. If you do not have access to the internet come by the office and we will gladly provide you with the most current set of Rules.

Be prepared for boating season by making sure all required safety devices are present and in working condition. New boaters age 16 and under are required to take the Holiday Shores boating test prior to operating any watercraft. Take a few minutes to familiarize yourself with our rules prior to the season and let's all have a safe boating season in 2022.

Dues and Assessments are due. Members who may have difficulty staying current with this requirement should contact the office and communicate with us any special needs. Failure to do so will leave us no choice, except to proceed with collection efforts which adds costs to all involved. Communication with the Office is a key factor and could save us all added expenses and frustration.

Keep the forecast in mind when parking on the roads. If there is a snow event, greater than 2 inches, the maintenance dept. will be working diligently to clear our roads, and vehicles parked alongside the roads makes their task that much more difficult.

Help make your community a better place to live. Volunteers make the difference. Take a look into our committees and see if you can make a difference. Candidates for the Board of Directors election in May are needed. Deadline for application submittal is April 10<sup>th</sup> 2022. Applications are available by stopping by the Holishor Office or by download from our website [www.holidayshores.us](http://www.holidayshores.us)

## 2022 Dues & Assessments

If paying with the  
installment plan,  
your 2nd  
payment  
is due March 1.

A late fee will be charged after 10 days

## Make Snack Time Pop

(Family Features) No matter the occasion, nearly every gathering of loved ones is better with snacks.

Perfect served by itself or as an ingredient in whole-grain creations like Poppy Chow, a twist on a classic kid's favorite made with peanut butter, chocolate and popcorn.

With no artificial additives or preservatives, light and airy popcorn is naturally low in fat and calories, non-GMO and gluten free, making it a sensible option to satisfy cravings for something savory, sweet and just about every flavor in-between. Plus, whole-grain popcorn has energy-producing carbohydrates and fiber, which can help keep you satisfied longer. Visit [Popcorn.org](http://Popcorn.org) for more tasty snack recipes worth celebrating.

## Poppy Chow

Yield: 2 quarts

2 quarts popped popcorn

1/4 cup (1/2 stick) butter or margarine

1/2 cup creamy peanut butter

1 cup milk or semi-sweet chocolate chips

1 cup confectioners' sugar

Place popcorn in large bowl; set aside. In microwave safe bowl, combine butter, peanut butter and chocolate chips. Microwave 2 minutes; stir until smooth.

Pour chocolate mixture over popcorn and stir until well coated.

Sprinkle confectioners' sugar over popcorn and stir until coated.

Cool to room temperature before serving.

Store in airtight container, refrigerated, up to 24 hours.

Public Safety Report

Read by John Crotty

## Old Business

906 Holiday Point Parkway

John Crotty Drainage of water and discussion with the engineer and the homeowners. We do have a quote from the engineer who is here tonight to review what could be done to get that water off of the property. Do we have any questions for the engineer or the homeowners? So at this point, all they've done is provide us a quote for engineering work. I guess that's why your here today to kind of give us an idea what that would entail. Dennis Denby w/CMT Rob Clarkson had asked me to give a quote for a topographic survey at 906 Holiday Point Parkway from the culvert all the way down to the lake. John Crotty The amount for that work would be \$1,145. Tony Harris What would the timeframe be to get that done once it's approved. Dennis Denby w/CMT January Tony Harris It's my thoughts as a board member if we spend the money and get this work done, how much are you guys as the homeowners willing to fit into this project. Resident (906) I don't know, what is the plan? Tony Harris We don't know. That cost is to develop a plan, just for the survey. Resident (906) I feel we've done our part, we had our property surveyed, the elevation of our property, property lines to prove it was our property, and one step further with elevation of our property. We need to know if it is your responsibility or our responsibility. Tony Harris Anything on your property is not Association responsibility, the Association is only responsible for Association proper. Resident (906) Going back to the fact whoever decided that it was okay put a larger pipe in to dump more water across our property and erode even more. I can't even mow. Tony Harris So it might put the same water across there faster, the larger pipe, but the same amount of water is going to flow through there either way, it might just come through at a slower pace, because what is going to be there. But you get so much water coming down, flowing through that pipe, let's just say 10,000 gallons, it may flow at a smaller rate through a smaller pipe, but the same 10,000 gallons is still going to flow across property. Resident (906) But when you upgraded all the culverts and everything above and then every house, every driveway that is put in above us is increasing the water flow

on top. So you've upgraded the pipe to court to take on the increasing volume that's coming across for a reason and that was to get it across the road quicker and faster. Ty Van Ryswyk Possibly to save the road. I mean, we could have the roads in your front yard if it sits there and undermines the road. Robert Wittkamp And we have to protect the roads, that's the association's job. Resident (906) So who cares about the water coming across our property. Tony Harris Your lot is probably the lowest point, that's why the water flows through there, it's going to flow through there no matter what. It's always been directed there. There was a culvert there before, there were there were ditches running down through there before this. This isn't the first ditch or culver that ever appeared there. Shelly Acevedo (906) Correct. There was one there in 1994, a much smaller, smaller pipe. However if you notice, you have ditches everywhere else directing the water out of your culverts, where it flows, except for my property it comes and it stays. It goes all the way across my property. Originally, you guys didn't think it was my property, which is why we kind of proved that it was my property. And now we proved it and it's still a battle. I don't understand it. Tony Harris It's still the lowest point, it's where it's going to flow. John Crotty It's the lowest point. How are we going to get from your property back uphill? You can't make water go uphill. Resident (906) You cannot force water to go up a hill, , but you have 50' between our property and the property behind us that goes all the way to the lake. Jerry Allen Yes but that elevation is much higher than your elevation, isn't it? Resident (906) But if you're putting in a pipe it doesn't matter, the pipe goes underground. Jerry Allen The normal flow of the water has always been down towards your house. Resident (906) The water is going to go through the pipe, it doesn't matter if it's 10 foot down or on the ground it's going to flow from the top. You follow what I'm saying? Robert Wittkamp We're not putting a pipe in. Shelly Acevedo (906) We just want to know what our options are. Tony Harris That's where we'd have to get the survey work and stuff done to see the lay of the land . In theory you could put a ditch in, I just don't know how deep it would have to be and whether it would be realistic from that height, whatever the height of lake is, that's why we would need a survey to tell us. Shelly Acevedo (906) So basically you're telling me that I have to take all the associations water that is above me on my property, that's my option. Robert Wittkamp It's not the associations water, it goes through everybody's yards. Resident (906) Who controls the water? Robert Wittkamp God. John Crotty That water is going to go from where it started to the lake somehow and to save the road we have the right as the Association to cross the road with a pipe to get the water from one side to the other to save the road. Conversation ensues Shaun Diltz There were pipes that weren't in the 20-year flood parameters, so he went back and upgraded those to fall in line with that. Just for this engineering study does it just have to be that pipe? Could we have a couple other options as far as dirt movement because we do own a lot next to it. Dennis Denby w/CMT Rob just talked to me about the pipe option. Shelly Acevedo (906) I think that would probably be the most expensive option but maybe not. Dennis Denby w/CMT Generally speaking the pipe would be more expensive than anything else that we have talked about. Shaun Diltz I just want to know the feasibility of it because of how it's set up just because that is the low point so can we move that around to make it not so low. So anything, a bigger storm than say statistically a 25-year storm, which is once every 25 years, would possibly overflow that pipe. And so you know, if you have a smaller pipe and obviously it overflows in lower storm events or if you have a bigger pipe you have more protection for larger stock events. So that's kind of the philosophy behind the sizing of those pipes under the roadway. It's what protection you want to provide, for what storm event. I think we're set up for that 25 year around here in the community. Shelly Acevedo (906) Yes, generally what we've been seeing on the crossroad culverts especially the the newer ones, I think that you've been putting in, some of the old ones or you know, too small but yeah, for that storm event. Tony Harris Sounds

# Love...

**Holiday Shores Baptist Church**  
6521 Moro Rd., Edwardsville 62025

**618-377-PRAY(7729)**  
[www.holidayshoresbaptist.org](http://www.holidayshoresbaptist.org)  
[hsbc@holidayshoresbaptist.org](mailto:hsbc@holidayshoresbaptist.org)

February and Valentine's Day and LOVE. It seems that they all go together.

The Bible is God's book of love. Consider John 3:16 in the New Testament. For God so loved the world that he gave his one and only Son, that whoever believes in him, should not perish but have eternal life. Someone has suggested that this is the greatest verse on love in the entire Bible and wrote the following as proof.

For God  
...THE GREATEST LOVER  
so loved  
...THE GREATEST DEGREE  
the world  
...THE GREATEST COMPANY  
that he gave  
...THE GREATEST ACT  
his one and only Son  
...THE GREATEST GIFT  
that whoever  
...THE GREATEST OPPORTUNITY  
believes  
...THE GREATEST SIMPLICITY  
in Him  
...THE GREATEST ATTRACTION  
should not perish  
...THE GREATEST PROMISE  
but  
...THE GREATEST DIFFERENCE  
have  
...THE GREATEST CERTAINTY  
eternal life  
...THE GREATEST POSSESSION

This love from God is a personal love. God is reaching out to you with incredible love and giving to you a wonderful opportunity to avoid eternal death and destruction and to gain eternal life by simply putting your faith in his dear Son, the Lord Jesus. Will you respond to his love today?

For further conversation about the Bible or spiritual matters, please contact Pastor Rob Lemon at Holiday Shores Baptist Church at 618.377.7729 or [pastorrob@holidayshoresbaptist.org](mailto:pastorrob@holidayshoresbaptist.org).

# HOLIDAY SHORES FIRE DEPARTMENT

## *Firefighter's Footnote*

### Holiday Shores Fire Department Transitions to New Chief-Jim OBrien

As of January 1, 2022, I have taken on the role of Fire Chief for the Holiday Shores Fire Protection District from Steve Cooper. Steve served as Assistant Chief, then Chief, over a time span of almost 20 years, with over 31 years of service to the community on the Fire Department of which he still belongs to today. I'm honored to have this opportunity to serve the community and carry on the legacy of an exceptional group of volunteers! If you know Steve or come across him in passing, please tell him thanks and give him your warmest regards!

The Holiday Shores Fire Department was started in 1976 by a small group of dedicated citizens who saw a need to create a fire department to serve the growing community of Holiday Shores and the surrounding area. Today we cover a district of 16 square miles and thousands of residents. We respond on average to around 225 calls a year, a number that has been slowly increasing as our population grows and our residents' needs have increased over the years. Most of our calls are medical in nature, we serve as a 'Basic EMT' service, attending residents who are in some sort of distress, and provide pre-hospital care while assisting in getting them to advanced medical care, normally with the Alton Memorial Ambulance service or AMA, but we also respond to car accidents and extrications, fires, gas leaks, CO alarms, and a myriad of other unique emergencies.

We are a unique group of 27 members comprised of students and retirees, bankers

and laborers, construction workers and nurses, white collar and blue, who want to serve and be part of an organization that makes a difference in our community. We respond to calls any time, day or night, and want to help others on their worst days. If you're interested in joining, we can use your help! We need new members who can learn from our more tenured folks and continue the long and rich tradition of the volunteer fire service. We meet on Monday nights at the firehouse at 7 PM and one Saturday morning a month. You will go through a 6 month candidacy period where you become familiar with our equipment, standard operating guidelines, and basic familiarization training. From there if you like we will support you in attaining an EMT-Basic license or EMR (First Responder) certification. No previous experience required, just a desire to be part of something special and serve the community. If you have any questions, stop by any Monday night, or email me at [Chief@HSFD.Org](mailto:Chief@HSFD.Org) Stay Safe! Jim

**Firefighter's Footnote** - Holiday Shores Fire Department welcomes our new Fire Chief Jim O'Brien, as he takes over from our former Chief Steve Cooper. As mentioned on our Facebook, Jim has been a member of the fire department since 2004 and has countless hours of fire training. He is an EMT and has been in charge of most of our trainings and certifications for many years. We look forward to his leadership as we continue to grow and serve our community.

In 2021, HSFD responded to 225 calls with a breakdown into 17 different categories. As mentioned previously, medical calls are the most prevalent type of runs we make with a total of 152 medical calls answered this past year, followed by invalid assist 21, then covering another station 7, tied next by 6 brush fires, canceled en route, and motor vehicle accidents with injuries, 5 calls for false alarms and smoke detector activations, 4 building fires, 3 runs each for motor vehicle accidents without injuries and no incident found on arrival, 2 gas leaks, and 1 each of a vehicle fire, emergency medical service incident, smoke/odor removal, CO2 detector malfunction, and carbon monoxide activation without being present. Follow us on Facebook or check us out on our website at [www.hsfd.org](http://www.hsfd.org).

### Pistachio Bundt Cake

1-White cake Mix	½ cup water
2 packages "INSTANT" pistachio pudding	4 eggs
½ cup milk	1 tsp almond extract
½ cup vegetable oil	

Mix all ingredients together. Pam spray bundt cake pan. Pour into pan. Bake 350° for 50 minutes. Bake only in BOTTOM OVEN RACK. Check with toothpick. To assure if completely baked. Sprinkle with powdered sugar when cooled.

ENJOY!! ENJOY!!

Recipe compliments:  
Deb Jennings HSFD

# WANTED

## MEMBERS TO RUN FOR THE 2022 BOARD OF DIRECTORS

In the spirit of a community team, you are being asked to step up and run for a seat on the Board of Directors. Do you have an interest in being a part of the team that makes decisions affecting the manner all families live within our community?

This is a commitment not to be taken lightly, however, enhancing the chosen life-style of our members and taking the community forward will be rewarding.

Board of Director's meetings are held on the second and fourth Wednesday of each month except for November and December where they only meet the second Wednesday of each month. The BOD meetings average around two hours. Each of these meetings may be followed by an executive session averaging 1-2

hours to discuss personnel, legal or real estate. The Annual Meeting of membership is held the third Saturday in May and averages 3-4 hours. Additionally, based on your expertise or desire, you may want to augment one of our many committees. Terms of Board of Directors are three years. This year, there are openings for 3 three-year terms.

If you never attended a Board meeting, now would be a great time to do so. Have you been a part of any of the many teams of volunteers for activities here at The Shores? If so, you then have some idea of how the community functions.

Your association members will expect you to be fair and listen to all sides of whatever decision making issues are being addressed. You will be expected to make decisions that will be the best for the entire community. If you are not sure just what a Board member does, please contact one of our current Board members and they will be glad to share with you just what it is that they do for the community. Their contact information can be found on page 2 of the Holiday Times.

*Continued from Page 15*

like the upgrade of the pipe may have just been getting up to current standards Shelly Acevedo (906) Yeah, that's that's what I was trying to say. We weren't upgrading it because anything was happening. When we were working with whatever engineering company in 2014 or 15, that's when Glen was going around upgrading a lot of the culverts. Jerry Allen So back to your bid, would it include marking out the property all the way to the lake so we could visually see what the route of that potential pipe or any other option might be. So it doesn't include any boundary surveys, it's just a topo survey. So getting the elevations out there is what we would have, we could include getting the property corners located as well, if you need that. But whenever I talked to Rob, he was just asking about getting topo, which is the elevation difference. Resident (906) I don't know if you're aware, we have a topo of our property already. We paid an engineering firm to come out and locate our corners and do all that on our property. Not on the 50 foot. So I mean, that is available. I have copies of it. I don't know if y'all would like to look at that to see. Because obviously, if it could reduce some cost on. I mean, we're here to work with everybody. We're not just trying to say, look, it is what it is. I mean, but at the same time it is our yard and we don't have use of our yard and the washout is getting worse and worse every time it rains. That's what we're here for. We're not trying to be angry neighbors we're trying to be, you know, work together neighbors. The front, the Holiday Point Parkway separation between our property and the 50-foot easement stake is there, it's been there, since we had it done, I mow around it. The one in the back, potentially I think somebody didn't like it, so they removed it. But, I mean, we have that. And we will give up whatever we need. It's certified, stamped by an engineer. So, you know, whatever it takes, we're just looking to gain access of our yard so it's not a river, every time it rains. And I mean, it could be just a light rain, and it gets soft enough that you can't walk across it, you can't mow it, you can't do nothing. And you know, since we moved in here, we have talked about a pool. And we can't even do that. Because what's gonna happen with a pool, you put a pool there, it's just going to wash the bottom right off from under it. And we don't want a total above ground pool, we wanted a split pool, you know, a little bit above and then that's just gonna it'd be a disaster and we can't do nothing because we take up all we take on all the water above us across that property. And it's gotten worse since the pipe was enlarged, obviously. If anybody's seen it before, I have pictures from right after we moved in to basically the last big rainfall of the difference in the water. Like I said, last time we was here, you know, the kids across the street, are getting in a two man, a three man tube that you pull behind a boat and going across their property. But they bought that property knowing and I talked to the man knowing that it was a drain way. We didn't buy our property knowing that all the water come across our property. When we was out there we were told that the drain to get moved off of our property by Rob Frey and Bev George. It's irrelevant, but we were told that so then we're like, okay, fine. And then when the pipe was upgraded, it was put in the exact same spot as it was before. And then that's when we made our contacts and started going through this route. John Crotty So a question was asked earlier, if we get the survey done, and there was a plan in place and there was work that needs to be done on your property what would you guys be willing to pay for? Resident (906) Well, let's see. I don't want to pay for any engineering cost. Honestly. Now, when it comes down to what's going to happen, we can look at that. I mean, obviously to keep from burying it under our dirt if we need to work a deal where we got to bring in extra dirt. I don't have a problem. I would like the yard built up anyway. But I can't build the yard up. Because if I do now, well you guys won't let me for one because it'll just backing up everything. I cannot build my yard up right now. Engineering question, you've seen it? Could I build my property up? Dennis Denby w/CMT No, I mean, the natural drainage way comes across your property, so to the west side of your driveway, and it goes down to the lake, which is south of you. So that's the, you know, in Illinois, Illinois drainage laws that you can't block natural drainage ways. So you couldn't go in and fill that up and keep the water from flowing across. Resident (906) So therefore, we have no use of that property. So what I'm getting at is, you heard it the way it is. So I can't build that up. I can't put a pool in, I can't do nothing because that will

# A HALL OF FAME FEAST FOR HOMEGATING FANS

Pulled Beef and Slaw Sliders

## FAMILY FEATURES

Gathering your team to plan for a truly memorable game day at home starts with almost everyone's favorite part of the festivities: the food. From meaty meals and zesty appetizers to sweet, long-lasting snacks, fuel your crowd with recipes that keep them coming back from kickoff to overtime.

One superstar of the menu at many homegating parties is salsa, whether it's used as a finishing touch in recipes or as a standalone snack to enjoy with chips, veggies or other pairings. In fact, according to the Game Day Eats Report from Fresh Cravings, 22% of guests would insist on running out to pick up salsa if it wasn't available for the feast; 18% would even be devastated and consider leaving.

Chef Anthony Serrano recommends these all-American recipes he makes for his family on game day. Pulled Beef and Slaw Sliders are perfect for piling high with delicious toppings before hitting the couch just in time for kickoff. Snacking throughout the action is a preferred approach for many fans, making Cast-Iron Smoked Queso Dip and Hummus Deviled Eggs go-to options for armchair quarterbacks.

These crowd-pleasers make game day worth celebrating, especially if you use a salsa with high-quality ingredients like vine-ripened tomatoes, crisp vegetables, zesty peppers and spices found in Fresh Cravings Salsas. Their flavor-packed, vibrant recipe offers a homemade-tasting alternative to the softer, duller blends of jarred salsa.

To find more championship-level game day recipe inspiration, visit FreshCravings.com.

## Pulled Beef and Slaw Sliders

Recipe courtesy of chef  
Anthony Serrano

### Pulled Beef:

- 2 pieces (about 3 pounds each) beef chuck roast
- 2 tablespoons taco seasoning or barbecue rub
- 1 cup beef bone broth
- 16 ounces Fresh Cravings Chunky Mild Salsa

### Salsa and Queso Slaw:

- 16 ounces Fresh Cravings Chunky Mild Salsa
- 16 ounces broccoli slaw blend
- 1/4 cup green onions, sliced
- 1 teaspoon salt
- 1 cup crumbled queso fresco
- 1 tablespoon Dijon mustard
- 1/2 cup mayo
- 2 tablespoons apple cider vinegar
- 2 tablespoons cilantro (optional)

slider buns  
Fresh Cravings Salsa  
barbecue sauce  
pickles  
jalapenos  
sliced cheese  
roasted peppers  
onions

To make pulled beef: Season both sides of beef with taco seasoning. Wrap with plastic wrap and place in fridge 2-12 hours before cooking.

Place meat, beef bone broth and salsa in pressure cooker; seal according to pressure cooker directions. Cook on high 60 minutes. Once pressure cooker is safe to open according to instructions, open and let meat rest in liquid 15 minutes.

Remove meat from liquid and place in large bowl. Carefully shred meat. Pour liquid, up to half, over meat while shredding to keep it juicy.

To make salsa and queso slaw: In large bowl, mix salsa, slaw blend, green onions, salt, queso fresco, Dijon mustard, mayo, apple cider vinegar and cilantro, if desired. Cover with plastic wrap and refrigerate until needed.

To assemble sliders, place pulled beef and salsa and queso slaw on buns. Top with salsa, barbecue sauce, pickles, jalapenos, sliced cheese, roasted peppers and onions.

Cast-Iron Smoked Queso Dip

## Cast-Iron Smoked Queso Dip

Recipe courtesy of chef  
Anthony Serrano

- 2 cups cheddar cheese
- 1 cup Monterey Jack cheese
- 1 teaspoon almond flour
- 1 cup heavy cream
- 1 cup Fresh Cravings Restaurant Style Salsa
- 1 teaspoon paprika
- 1 teaspoon sea salt
- 1/4 cup cooked chorizo

- 1 teaspoon liquid smoke
- cilantro, for garnish
- diced bell pepper, for garnish

In cast-iron pan, mix cheddar cheese, Monterey Jack cheese and almond flour. Pour in heavy cream and salsa; bring to gentle simmer. Whisk while simmering 5-7 minutes, or until queso dip begins to thicken. Add paprika, salt, chorizo and liquid smoke; adjust seasoning as necessary.

Garnish with cilantro and bell pepper.

Hummus Deviled Eggs

## Hummus Deviled Eggs

Recipe courtesy of chef Anthony Serrano

- 6 hard-boiled eggs, peeled
- 1/4 cup Fresh Cravings Classic Hummus
- 1/4 cup smoked cheddar cheese
- 2 tablespoons bacon, cooked and crumbled
- 1 teaspoon yellow mustard
- 1 teaspoon salt

- smoked Spanish paprika, for garnish
- parsley, for garnish

Cut hard-boiled eggs in half lengthwise. Remove yolks and place in bowl. Using fork, mash yolks into fine crumble.

Add hummus, cheese, bacon, mustard and salt; mix well.

Evenly disperse teaspoons of yolk mixture into egg whites. Sprinkle with any remaining bacon, paprika and parsley.

# Holiday Shores Snow & Ice Removal

Snow plowing and ice control begins when there is two inches of snow and more is expected or when ice begins to make the roads hazardous. Ice control material is applied to location on an "as needed" basis.

It takes 4-5 hours to plow the entire community with only two inches of snow.

Please drive with caution anytime winter precipitation are on the roads.

**DO NOT CALL THE OFFICE TO SEE IF THE SNOW PLOWS ARE OUT OR TO REPORT SNOW. PLEASE BE PATIENT.**

## ***Which roads are plowed first?***

Heavy traffic hills and main roads are plowed first.

## ***What caution should I be aware of?***

Do not park on the road during the snow removal process. Do not push snow on to the roadway, this creates a very hazardous condition.

## ***What about driveways?***

Maintenance personnel are not authorized to plow driveways & plows will not be lifted at the entrance to each individual driveway.

Clearance of driveway entrances is the responsibility of the resident. Plows may make several passes in order to widen the roads.

## ***What about mailboxes?***

The truck will get as close to the mailboxes as possible. It is the homeowner's responsibility to keep the area in front of the mailbox cleared.

Keep mailboxes closed at all times.

## ***What about trashcans on pick up days?***

Trashcans & recycle containers must be 4' off the road.

The snowplow drivers will not get out to move your containers and will not be responsible for damage.

## **USE CAUTION!!**

**When maintenance is out on the roads, stay a safe distance behind the trucks.**

**If you cannot see the mirrors on the trucks, they will not be able to see you.**

**PLEASE BE PATIENT AND COURTEOUS**

# HOLIDAY SHORES Garden CLUB NEWS

By: Donna Nelson

[www.holidayshores.us/garden-club](http://www.holidayshores.us/garden-club)

The Garden Club members continue to be on their winter break, having no meetings in February or March of 2022. But, rest assured, the wheels are turning and everyone is busy pre-planning their gardens for the upcoming spring season by scanning through the various seed catalogs and charting the placement of new bushes and flower beds. Use this time to list what plants worked in your garden last year, and what plants did not grow to your satisfaction, so you can look for new and interesting plants to add this year. This can be an exciting time of anticipation of how you would like your garden to look throughout this year.

The Garden Club members are delighted to add three new Holiday Shores residents to their club roster for 2022.

welcome

*Gay Early, Nora Muffler, and Anna Muffler*

During these cold months, it is important to remember our feathered friends. To survive this type of weather, birds need extra nutrition, so feed them high-fat food for energy. By late winter, many natural food sources for local birds will begin to thin out, so keep your feeders fully stocked until spring, and be sure to shield the food from rain and snow. Offer a variety of foods to attract the widest selection of bird species.....and here are some examples:

**Black sunflower seeds** will attract the beautiful red cardinal to brighten up a winter day.

**Peanuts and sunflower seeds** will likely draw the white-breasted nuthatch and blue jays.

**Safflower seeds** will bring the cute little black-capped chickadee that eats 20 times more in winter than in the summer months.

**Niger seeds** will surely bring you those lovely yellow finches.

**Beef Suet** is ideal for woodpeckers & mockingbirds.

Birds have a unique way of keeping warm in near-freezing temps, by fluffing up their feathers to create their own little air pockets. The air warms and the birds are wrapped in a blanket of cold-busting heat. To maintain this warmth, birds must eat a great deal of fat-rich food to generate the necessary heat. So, they need our help in winter!

 **February is an excellent time to prune deciduous trees.** After trees lose their leaves in late autumn, their structure and shape are revealed. It's easier to see which branches are growing inward (discard those) or crossing others (discard those too). Winter pruning will encourage new growth in spring. During this dormant period, insects and diseases that could harm fresh-cut trunks or branches are also dormant. An exception to this pruning rule is spring-flowering trees. Wait to prune those until late spring after their flowers fade. Pruning them now, will cut off the spring blossoms. Like trees, deciduous shrubs go dormant in cold weather, so before leaves start to appear, prune them now to encourage healthy growth and lovely flowering in the spring.

restrict the water flow, which is illegal. But then it's okay for everybody else to just do what they want to do. And I say everybody else as in the Association to put a bigger pipe and dump more water across our property and to create more wash out and waste our property even more than what it was before. That's all we're looking for. Tony Harris When you bought the house, that drainage was already there. Resident (906) We were told it was being moved. Ty Van Ryswyk Well maybe you should have got that in writing. Tony Harris Rob Frey doesn't work here anymore. I can't tell you what he said. Shaun Diltz It's the lowest point so it can't be moved. Shelly Acevedo (906) Jack had the conversation with Rob. And actually, I think reprimanded Rob for that. Is he still around? Prior president. Resident (906) The prior president Dave Decker said that he had no right saying that. Tony Harris But he shouldn't be saying that. Resident (906) But does it matter who said it though, because now you're just turning around and rebuttal against it. Dave Decker (1184) So I had a conversation with Rob Frey. He denied he ever said that?. We had that conversation; I believe I had this conversation with you. He had no right to say that. He says he didn't say it. There was never any discussion amongst the board about moving that culvert. So there were never any plans to change that waterflow, it's the same path it's always been on. John Crotty Anybody else in the board have other questions for the engineer or the homeowners?

Failed due to lack of motion

**Salt Spreader Purchase**

John Crotty This is from Rob Clarkson to the board. They've been looking for options for the salt spreader to make the snow removal more efficient and replace aged equipment. They've narrowed it down to the item that's attached in your packet. The reserve item was approved for purchase back on February 24, 2021. This purchase is actually less than the money that was in the reserves so it will leave a little line item in the future. The total cost of the spreader will now be \$3,825.

**Dam Inspection**

John Crotty They completed the dam inspection on November 12, 2021. Present were representatives of CMT and IDNR. Everything appears to be in good shape with some minor deficiencies in the area of the overflow tubes. These items are not new and have not worsened since the last inspection. As soon as the paperwork is completed it will be available for the board to review if necessary. Shaun Diltz Since we have CMT here, do you know anything about the dam inspection? I'm just curious. Dennis Denby w/CMT Someone else at our office had done the inspection so I'm not familiar with the report.

**New Business**

Variance (1580)

John Crotty They are installing a pool and they're getting up to the end of their six months of their permit. And they're requesting an extension due to supplies being delayed through the current situation. The building committee has recommended approval to extend this to February 28, 2022. Ty Van Ryswyk This is obviously a reality of the construction world, that we're all dealing with that in getting product and completing jobs on time.

Ty Van Ryswyk Makes a motion to accept that variance.

Jerry Allen Seconds

John Crotty Anymore discussion?

Mark Unnerstall (34) I'm part owner of Oasis pools and I also live out here. And we're building a pool down at 1580 Su Twan. But so, obviously, yeah, we're seeing some major delays on materials, which has delayed the timeline of the construction. In all reality, we also have winter coming up. And then you know, being a completion of February 28 is probably pretty unrealistic. Because we typically have tents we can throw over job sites, but we can't plaster in the wintertime, you know, there's fencing to go up and the grounds gonna be frozen. So it's kind of somewhat unrealistic to think that we're gonna be done by February 28, because of the ground conditions that are coming up, there's a lot of other completion work

that will be done and the project will be done. But there's no way we can have plaster on the pool. Fencing up is going to be pretty dang close as well. March can somewhat become a very tough month as well, because you can get a lot of rain, have freezing conditions. I don't know what the weather is going to do. It's unforeseen conditions that we're just not aware of yet. So we'd like to probably extend that to like, April 20, to be realistic. John Crotty What does the board think about the requested date? Shaun Diltz Conversation ensues

Ty Van Ryswyk Amends the 1<sup>st</sup> motion to accept the variance till February 28, 2022, and then just revisit it then.

Mark Unnerstall (34) Yeah, no, that's no problem. As long as you guys are kind of aware. I mean, the odds are we're probably going to be back up here unless we can get more time. Ty Van Ryswyk That's fine, I think just keep that line of communication open. Shaun Diltz If it's already unrealistic, I'm fine with pushing it. So we don't waste anybody's time, I mean, we might see him back again in April if it has to go further.

Ty Van Ryswyk Amends the 2<sup>nd</sup> motion to extend the date to April 20, 2022.

Shaun Diltz Seconds the amended motion.

### Correspondence

Holiday Shores Fire Department

John Crotty The Holiday Shores Fire Department is hosting two events in the next couple of months, one being the annual trustee Christmas dinner, which will be Tuesday, December 21. Estimated attendees of 60. And then the annual chicken and beer dance, which will be February 5, with an estimated attendance of 150 to 200. They're asking that we waive the ballroom rental fees for both events, they would still pay the reservation/damage and appropriate cleanup fees.

Tony Harris Makes a motion to approve waiving the rental fees for both events.

Jerry Allen Seconds

All in Favor

Motion Carries

### Open Floor

Shaun Diltz I've talked to Rob and some of the fisherman about taking all the pine trees that get dropped off here and putting them in the north ponds for bluegill structure. If it ices over, we can just take them out there and throw them in the lake. So usually they throw them out here or somewhere. John Crotty Would you put all of them up there? Shaun Diltz Yes, we'll throw them all up there. It should provide a little bit more cover for the little fish.

Shaun Diltz Makes a motion to approve the Christmas trees being put into the

north ponds.

Shaun Diltz The three north ponds, the ponds above the lake. If you look at that spreadsheet for the fish stocking, we've actually pulled close to 3,000 bass out of those ponds over the last 15 years to dump into the main lake. So it just provides a little bit more forage for the little bluegill.

Ty Van Ryswyk Seconds

John Crotty And this will be just for this year, just for 2021. Shaun Diltz Yes

All in Favor

Motion Carries

Shaun Diltz I was looking at the the rules and the crappie. The crappie creel limit says it's only good till 2022 so we probably want to revisit that. IDNR said it's fine to keep it lifted. John Crotty Are you suggesting proposing through 2022? Shaun Diltz I would actually just put it for a couple, two to three years. It's not going to change. John Crotty Do we have another shock of the lake in 22 or 23? Shaun Diltz 23, we do it every two years. We can always roll it back. I don't know if that's a rule change or just a motion.

Tabled till January 12, 2022 board meeting to gather more information.

Tony Harris Makes a motion to adjourn to executive session

Jerry Allen Seconds
